

WELCOME TO DISCOVERY CITY

Discovery News

Final [Collector's] Edition

Friday Aug. 26

What a rip roarin', knee slapin' time we've had all week long!
It has been a lot of fun for everyone.

We've been talking a lot about treasures more precious than gold. Really, as far as Jesus is concerned, all children are more precious than gold—and that includes you! God loves you so much that he sent Jesus to this earth, born as a baby. But he wasn't any ordinary baby—he was the Son of God and because Jesus died for our sins, if we ask Jesus to come into our life we too can become children of God. The real treasure in this world isn't in riches or gold, it's in knowing that God loves you and has forgiven you your sins and made you a new person!

All of us here at Discovery City want you to really get to know Jesus. We encourage you to read your Bible, and go to Sunday School and church. If you need a Bible or don't have a church to go to, you are always welcome back here.

Thanks again for coming and making VBS 2011 so special! You are all welcome to come back on **Sunday August 28** for one last VBS Rally right here at 10:45 am. Following a special service that will feature all sorts of highlights and presentations from VBS, we will be having a hot dog BBQ outside! You can even bring your parents!

Mayor Megan

Better Than Gold

In the days of '98, or so I'm told
Many came north to the Yukon seeking gold
They came from many miles around North, south, east, and west
But the treasure I found surely is the best

His name is Jesus Christ, and truly He's the best
He's my Rock of Ages, upon Him I will rest
He's better far than any jewel, He's more than wealth untold
His name is Jesus Christ, far better than the gold
His name is Jesus Christ, far better than the gold

Now the years have passed since the day that gold was found
And many seeking wealth and fame down in the ground
Were sad to learn that none was there
For the gold they were too late
My friend I've found the Rock of Ages
There ain't none quite so great
